

# PREGNANCY & NEWBORN LOSS SUPPORT GROUP

The Pregnancy and Newborn Loss Support Group traditionally meets in person but has transitioned to an on line virtual group during the COVID-19 Pandemic to continue to provide support and help connect those who have experienced a pregnancy or newborn loss.

Experiencing a pregnancy or newborn loss of any kind can be very emotional and difficult. The Pregnancy and Newborn Loss Support Group is for mothers, fathers, relatives and friends-anyone affected by a miscarriage, stillbirth, early infant death, medical termination or other loss. Our group facilitators have experience with pregnancy and newborn loss and provide a setting where you can share your experiences, give and receive support and learn to cope with feelings about your loss. Whether you choose to share with the group or just listen, you are encouraged to attend.

Groups are held the second Tuesday of every month from 6:30-8pm.

Groups are free, non-denominational and open to all. You do not have to be a Michigan Medicine patient to attend. Registration is required to receive the zoom link.

\*Please note that due to the emotional nature of discussions, it is requested that arrangements are made for children so they are not visible on the zoom meeting.

**Cancellations:** While not anticipated, if the group needs to be canceled for any reason (examples-lack of registration, ill facilitator), the group will be canceled by 2pm the day of the scheduled group. Those registered will receive a cancellation notice via email.

If you have a smartphone, please use the QR code below to access our support group registration link.

**If you do not have access to a smartphone or for additional questions, please contact:**
